Early Advances Limited to a Few Lines-Close Featureless. REPUBLIC SPECIAL. New York, April 8.-The curb market to-day

New York, April 8.—The curb market to-day opened firm in tone, but with very quiet dealings. Advances were made in a few issues, in which early trades were made, but for the most part transactions and price changes were limited to small proportions. The later market retained its firm tone, but with narrow dealings. The trading was somewhat broader than at the opening sessioh, but at no time was it animated. The close was rather featureless, but firm in tone, and final quotations reflected eteadiness. Total transactions were estimated at about 15,008 wheres.

Total transactions were shares.

Northern securities sold at 1024-21374 for about 1,000 chares. Greene Convolidated sold at 2014 for 1,000. San Francisco Traction common sold at 224 and 2314 for 300 chares the preferred sold at 224 and the bonds at 90. United States Steel new bonds sold at 592. For about 75 and one bond sold at 292. Metropolitan securities rold at 1254 for 199 shares and about 3,000 rights sold at 11544 for 199 shares and about 3,000 rights sold at 1154174 and later 1174. Butter and Cheese.

POPE WILL SEND MISSIONS TO ENGLAND AND SPAIN

Anti-Catholic Clause in Coronation Oath of King Edward the Stumbling-Block.

Rome, April &-In spite of the opposition

of Cardinal Rampolla, the Papal Secretary of State, the Pope has decided to send important special missions both to the coronstion of King Edward and the festivities in Spain attendant upon the enthroning of King Alfonso.

The Cardinal's opposition to sending of

The Cardinal's opposition to sending of the mission to England was based on the fact that the British Parliament did not change the anticatholic formula of the accession oath, and that Mgr. Merry Del Val, whom the Pontiff designed to be chief of the missions, openly refused to go while the present wording of the oath is maintained. Nevertheless, the mission will be sent, and will probably arrive in London in a few hours after the religious ceremony. This will be a repetition of the diplomatic maneuver carried out at the coronation of Czar Nicholas II at Moscow.

The question of the advisability of the Papal mission to Spain was due to the compromise effected by the Queen Regent in naming the Spanish Ambassador to the Vatican as her representative at the Pope's jubilee. Under ordinary circumstances a royal Prince would have been appointed, but he would have been obliged to also go to the Quirinal, thus creating a situation full of unpleasant possibilities.

London as the result of news that a Cabinet meeting had been called to consider, it was said, peace negotiations with the Boers.

L. & N.—Early feature was L. & N. Room traders were unanimously of opinion that sharp rise was due to appressive bull operations by the Western clique. The stock was heavily bought by well-known commission-house. Selling was scattering and appeared to be chiefly predictaking by last week's buyers. There is said to be a large short interest. Much of this, however, arises from the fact that treasury stock sold by the company in the open market during past few days cannot be delivered yet, and the surface indications point to a heavy short interest.

Westinghouse—Both common and preferred thow sensational advances to the highest figures in record, and the common was unusually active. Reports from an apparently trustworthy source are to the effect that the company is earning at he rate of E5 per cent on its capital and madera are confidently predicting a further material improvement in prices for this stock.

The Metal Markets. The Metal Markets.

New York, April 8.—London the prices were advanced it 19e, making a sain of 15 lies within two days. Spot closed at 115 6s 3d, and flutures at 112 lies 3d. The New York market gained about 5 points, with spot closing at 25 to 25%. Copper was quiet and unchanged here, with inke at 12c to 12%, electrolytic at 12 lies and casting at 12c. London copper closed is net bigher, with spot at 52 lies and futures at 45%. Lead was unchanged here at 45% and futures at 45%. Lead was unchanged here at 45% and also unchanged at London, which closed at 111 2s 3d. Speiter suled firm at 5 points advance at New York, closing at 34.45. London speiter was 1s 3d higher at 117 los 3d. Iron remained culet and steady locally with pix iron warrants nominal. No. 1 foundry, Northern, 11520; No. 2 foundry, Northern, 11520; No. 2 foundry, Northern, 11520; No. 1 foundry, Southern sort, 117,50415. No. 1 foundry, Southern sort, 117,50415. The Spriish markets were firm. Glassow closed at 51s 3d and Middlesbore at 45 s 15d.

Colonial could not withstand selling pressure. At the opening sales were made at \$224, and the price rapidly declined to \$233.25. Germania dropped to \$294, and Missouri was barely steady at \$125.

Title Guaranty was well bought throughout the session, though mainly in small lots, the ruling price being \$133. American Central Trust had fair support at \$72.50.

Realizing sales caused the Missouri-Edison issues to ease off. The common stock dropped from \$17 to \$16.59. Brewery bonds were strong at 134.75.

In the afternoon there was a better feeling in tractions and most of the trust company issues. Transit was steady at \$30.62½, and United Railways preferred advanced to \$4.50. Colonial Trust, again on the downturn, sold to \$221.59. Both Commonwealth issues were strong, with sales of the old at \$135.59 and \$19 and the new at \$21. Title Guaranty was in excellent demand at \$134, \$134.50 and \$135. Twin City Rapid Transit—A considerable ndvance was accored by the common stock of this company, and a new high record was resolved. Transactions were on a greater scale than for some time. The directors to-day declared a quarterly dividend of 1½ per cent on common, thereby placing the shares on a 5 per cent basis. Heretofore 2 per cent semiannually has been paid.

American Ice—In marked contrast to general advancing tendency of the market, the American Ice stock was depressed, and both common and inferred stock sold at the lowest figures on record. Other than the general expectation that next dividend on common will be passed, there was nothing to account for the heaviness on these shares. D. S. S. & A.—Rogers and Gould were large buyers of both common and preferred, and there was talk of a material advance in these atocks.

Morning Session.

changed to 5 points lower, and following the call was only moderately active, with room sentiment rather hearish. The foreign market news averaged up unfavorably, and recepts in the crop country were much heavier tran predicted. Clearances from Brazil to the United States were large, spot demand was tame and speculative support, other than that from the built elique, was almost totally lacking. Late in the session some months further eased of 5 points to the lowest level of the senson thus far. The market closed quiet, with prices net unchanged to 10 points lower. Total sales were 2.5.00 hags, including May at 5.2565.0c, July at 5.45c, Aug. at 5.5565.0c, Sept. at 5.65c, Oct. at 5.70c, Dec. at 5.5575.9cc, Jan. at 6c and March at 6.10c.

Boston, April 8.—The wool market was exceedingly quiet here this week. Trade has been practically paralyzed by numerous strikes in the woolen mills. The trade seems to have much confidence in the future of the market, based largely upon comparatively small amount of wool on hand carried over. Territory wools are very quiet. Choice staple fine top Territory is quoted at 50 505 con the secured basis, while choice fine medium is quoted at 45 505. The ordinary fine Territory is seiling at 45 505. Scoured fine medium 43 545 and and above selling at 25 507. Michigan X and above is quoted at 26 to 11c, and No. 1 Michigan A 25 525. The sale of Australian wool is very quiet, owing to the small available stock on hand.

Dried Fruits.

New York, April 8.—A slow demand continued.

New York, April S.—A slow demand continued for evaporated apples, jobbers buving in a hand to mouth fashion, the feeling on all grades showed an easier tendency. Prices were unchanged. State common to good \$45%c; prime 3 \$65%c; choice \$5600c; fancy 10½file. There was some business in large size prunes, with the feeling steady to firm. Small sizes were neglected, were weak in tone and might be had for a shade under quotations. In spricots and peaches there was a fair jobbing demand noted and the tone ruled steady. Prunes \$567c. Apricots—Royal 10624c; Moor Park 115,0125c. Peaches—Peeled 14 \$718c; unpeeled \$610c.

STOCK MARKET OVERCOMES EFFECTS OF BRIEF FLURRY.

WESTERN MEN STILL APPEAR

AGGRESSIVE LEADERS. Louisville and Nashville Develops Great Strength and Leads Forward Movement.

New York, April 8.-The effect of yesterday's flurry in the money market was dissipated to-day, and an aggressive leadership was developed on the recovery in stocks. This leadership seemed to remain with the Western men who took hold of the market late last week. There was some evidence that their forces had been re-cruited from other sources, while their po-sition was stronger by reason of the shaking off of a weak following by yester-day's reaction. The extension of the short interest during vesterday's dealing was alinterest during yesterday's decline was al-so a technical factor of strength in to-day's so a technical factor of strength in to-day's market. The reassurance of the speculative element was not immediate this morning, and there was considerable wavering and uncertainty in the early movement of prices. In fact, there was not much in the market up to noon outside of the persistent absorption of Louisville and Nashville, and the sharp advance in Amalgamated Copper. apparently a continuation of yesterday's movement.

L. & N. Central Figure of the Market-L. & N. Central Figure of the Market-Movement Spreads to Other Stocks.

L. & N. proved the central figure of the market, and its aggressive advance was the dominating factor in the broadening demand for stocks. The dealings in the stock were on an enormous scale, and there were indicationa that the Western contingent of speculators was re-enforced on the buying side by a well-known operator who only recently returned from a long trip to recuperate his health. The explanations offered for the rise were mostly in the nature of surmises on the part of speculators. The reported acquisition of the Atlanta, Knox-ville and Northern Rt. any was believed to be the preliminary to active incursion into new territory. The belief was professed that the new issue of \$5,000,000 of stock for the purpose of this purchase already has been marketed, thus freeing the market from the future offerings of it. The aggressive policy undertaken by the company gave rise to conjectures as to the possibilities of the establishment of a community of interest in the territory concerned. Illinois Central and Southern Railway preferred were benefited by sympathy. The movement spread into the Southwestern stocks and St. Paul, but Union Pacific. Southern Pacific and Atchison were little affected by the movement. There was a general movement in the Vanderbilits of from 1 to 3 points, and a large number of minor stocks, of which the Wiscensin Central stocks were most conspicuous, were vigorously advanced. The list of minor industrials affected was also as large as has recently been the rule. The Westinghouse Electric stocks made sensational advances of 14% for the common and 15 for the first preferred on the strength of an analogy

that the teeling in the money market to-day was much quieter.

The Central of Georgia income bonds were the features of the bond market at advances of 2 to 2½ per cent. The Green Bay and Western Bs were also strong and active. Otherwise the bond market was rather quiet, but firm. Total sales, par value, £7.70,000. United States bonds were all unchanged on the last call. STOCKS AND BONDS IN BOSTON. Wall Street Gossip.

with the history of General Electric. The whole market gave way on the profit-taking, which developed in the last hour, and the principal active stocks were carried back from 1 to 2 points. The market closed easy. The rate for call loans to-day held firm at 5 to 6 per cent. It was believed that this rate would check further shipments of gold, and this assurance was a considerable relief to sentiment. The calling of loans yesterday seemed to have strengthened the situation of the banks so far that the feeling in the money market to-day was much quieter.

Will Oppose Pauper Importation. REPUBLIC SPECIAL. REPUBLIC SPECIAL.

Evansville, Ind., April 8.—The various charity organizations of the city have united in a pian to ask the next semion of the Legislature to stop the importation of paupers into this State. At a meeting last night Mrs. Mary Whistler of the Associated Charities said that during the past year very few natives of this State asked for aid, but that the applicants were mostly natives of other States or foreigners.
